Jim,

Thanks for getting back to me today.

For our call tomorrow at 10am EDT the call-in number is:

Please confirm in the morning if this time still works for you or if we need to reschedule for afternoon or Thursday. If your counsel can't be present, please have them email Ben Wakefield in OGC (Wakefield.benjamin@Epa.gov) directly to provide consent for OGC to be on the call without them. It has to come from your counsel directly.

Have a good evening,

Kaitlin

Hello Jim,

Sorry for the delay getting back to you, we wanted to internally discuss your last two questions before getting back to you. It would probably be easiest to discuss these options in a conference call instead of email. Do you have some time this afternoon or tomorrow morning? Also, we think it would be helpful to have Ben Wakefield from the Office of General Counsel present for the call, so your attorney would need to be present or provide him with written consent to be present when he is not. Please let me know what time would work best for you.

Thanks,

Kaitlin

Subject: Propoxur Collars

Good Morning, Kaitlin –

In our meeting yesterday, we reached general agreement that we will sign the letter pretty much as is, but there are still a few questions:

What form again is this agreement intended to take? As is, the document does not have a place for signatures – is the intent for me to write a letter on Wellmark letterhead ? Or is some other format intended? And I assume all you need is my signature, not a corporate officer?

When we sign the letter, when and how will that decision be publicized? (we will want to manage customers) Presumably, since the collars would not officially be canceled until the notice is published in the federal register, EPA will not publicly say the collars are canceled – is there any intent to publish the decision?

Finally, the agreement has fairly complicated plan for transitioning to new collars. Would it be simpler if we just agreed to cancel the collars in 18 months, with 12 months sell-through, and then any replacement collars stand on their own merits in a new submission?

Or do you really need to have the option to cancel the collars at an earlier date if we fail to meet a milestone?

Thanks,

James McFadden, Ph.D.
